

# DECORATIVE SHUTTERS EXTRAORDINARY VERSATILITY

## WHY CHOOSE US?

- Knowledgeable Team
- Aggressive Lead Time
- 3D Revit Capabilities
- Full Service Fabrication & Installation

## FEATURES & BENEFITS

- Weather Protection
- Rust Free Aluminum
- Countless Customizations
- Endless Color Choices
- Lightweight Design
- Low Maintenance
- Engineered To Code
- Durable Powdercoat Finish
- Wide Variety of Architectural Metals & Finishes

# DECORATIVE SHUTTERS EXTRAORDINARY VERSATILITY

The aesthetic appeal of decorative shutters makes them a great choice when looking to add beauty and form to the exterior of any building. Each system is produced from our 6063 T6 aluminum alloy extrusions for strength and corrosion resistance. Once fabricated, each Sunshade will either be powdercoated in house or anodized for a maintenance-free finish.

SCAN FOR MORE INFO

**Flat Shutter (Colonial Style):** A very cost effective way to bring style to a window or area on your building. The shutter is constructed of 2" aluminum slats (louvers) that run horizontally between perimeter frame members. The shutter is fastened directly to the wall.

**Bahama Shutter:** This type of shutter is perfect for the lightweight shading required on most commercial projects. In this instance, a flat shutter is mounted to a lightweight frame, projecting it out from the wall giving protection from the weather elements.

**Hurricane Shutter:** A rugged shutter, similar to the Bahama style, but uses much thicker extrusions. This type of shutter has been tested and passed the strict Miami-Dade County Product Approval (text #FL 2683 RI/FL 2681 RI), allowing the shutter to be installed in the Miami/Dade area as well as all through the state of Florida.
