SHADE SAILS

THE MOST ECONOMICAL SHADE UNDER THE SUN

SCAN FOR MORE INFO

At Sundance Architectural Products we specialize in designing, manufacturing, and engineering custom shade sails. Shade sails are incredibly versatile in terms of how you hang them. You can use one or several, hang them individually, side by side, or even overlap them to create a unique design and a greater coverage area. There are practically endless possibilities for your shade sail design and layout. Let our team of designers help you with your next project!
