EQUIPMENT SCREENS & ENCLOSURES CUSTOMIZED SOLUTIONS FOR SAFETY & PRIVACY

TRASH ENCLOSURES | STOCK YARDS | ROOF TOP EQUIPMENT ENCLOSURES | MAINTENANCE AREA ENCLOSURES

Equipment screens are designed to hide unwanted views and increase security of mechanical systems, HVAC equipment, trash enclosures, parking garages and other applications. Because they are louvered screens, they achieve these goals while still allowing air flow to the systems or areas they hide.

Sundance Architectural Products has the manufacturing capabilities to customize any shape, size and color to meet the specific needs of each project. Once fabricated, each screen will either be powdercoated in house or anodized for a maintenance-free finish. Let our team help you with all of your equipment screen needs!
